

1. A dissolvable flavoring capsule, comprising:
a capsule;
a selected amount of a dissolvable flavoring mixture disposed within the capsule, the dissolvable flavoring mixture comprising a filler and a flavoring additive.
2. The dissolvable flavoring capsule of claim 1, wherein the capsule comprises a gelatin capsule.
3. The dissolvable flavoring capsule of claim 1, wherein the capsule is flavored.
4. The dissolvable flavoring capsule of claim 1, wherein the flavor of the capsule corresponds to the flavor of the dissolvable flavoring mixture.
5. The dissolvable flavoring capsule of claim 1, wherein the color of the capsule corresponds to the flavor of the dissolvable flavoring mixture.
6. The dissolvable flavoring capsule of claim 1, wherein the filler comprises nondairy creamer.
7. The dissolvable flavoring capsule of claim 1, wherein the flavoring additive comprises flavoring oil.
8. The dissolvable flavoring capsule of claim 7, wherein the flavoring oil is colored to identify the flavor of the dissolvable flavoring mixture.
9. The dissolvable flavoring capsule of claim 1, wherein the flavoring additive comprises a sweetener.

10. The dissolvable flavoring capsule of claim 1, wherein the dissolvable flavoring mixture further comprises a sweetener.
11. The dissolvable flavoring capsule of claim 1, wherein the dissolvable flavoring mixture comprises a flavoring oil and nondairy creamer in a ratio of one to three ounces of flavoring oil to every 35.3 ounces of nondairy creamer.
12. A method for flavoring a food product, the method comprising:
 - providing a dissolvable flavoring capsule comprising a capsule and a selected amount of dissolvable flavoring mixture disposed within the capsule, the dissolvable flavoring mixture comprising a filler and a flavoring additive;
 - selecting a desired flavor of a dissolvable flavoring capsule;
 - placing the dissolvable flavoring capsule in a food product; and
 - allowing the dissolvable flavoring capsule to dissolve.
13. The method of claim 12, wherein the capsule comprises a gelatin capsule.
14. The method of claim 12, wherein the filler comprises nondairy creamer.
15. The method of claim 12, wherein the flavoring additive comprises flavoring oil.
16. The method of claim 12, wherein the dissolvable flavoring mixture further comprises a sweetener.

17. A system for flavoring a food product comprising:
a capsule;
a selected amount of dissolvable flavoring mixture disposed within the capsule,
the dissolvable flavoring mixture comprising a filler and a flavoring additive; and
a compact container for storing and transporting a plurality of dissolvable
flavoring capsules.
18. The system of claim 17, wherein the capsule comprises a gelatin capsule.
19. The system of claim 17, wherein the filler comprises nondairy creamer.
20. The system of claim 17, wherein the flavoring additive comprises flavoring oil.
